

# Tori Hedden

Front-end developer

## Experience

### Front-End Developer - Blue Cross and Blue Shield of NC (Blue Cross NC)

August 2016 - present

- Design and develop new projects and applications using modern web technologies, including AngularJS and VueJS
- Support Blue Cross NC's member portal, BlueConnect, and develop informational materials and marketing initiatives
- Spearhead Digital Solutions Campaigns team
- Collaborate with team members in an Agile environment

### Front-end engineering teaching assistant - The Iron Yard

May 2016 - July 2016

- Collaborated with instructor to structure lesson plans, assess class project work, and create learning resources

### Foodstream web application - The Iron Yard

April 2016

- Provided front-end engineering and UI design to build Foodstream, a web application to alleviate food waste

### BASF Agricultural Research Center - Laboratory Chemist

2014 - 2016

- Conducted laboratory and data analysis and wrote reports under GLP standards to support the product registration lifecycle of compounds essential to BASF's portfolio
- Contributed to weekly stand ups to assess progress within a team environment and to meet weekly and longer deadlines

### Rogers & Callcott Environmental - Laboratory Analyst

2012 - 2013

- Conducted chemical analysis of environmental samples
- Consistently met deadlines for high volumes of time-sensitive samples while maintaining quality and safety guidelines

## Community Involvement

- Mentor, Rewriting the Code program
- Instructor, Web Development Basics Course, The Iron Yard
- Instructor, Carolina Friends School Front-End coding course
